User's Quick Guide Gigabit EoC Adapter (Long Range & Multi-Drop)

Model No. DECA-1000
20103981

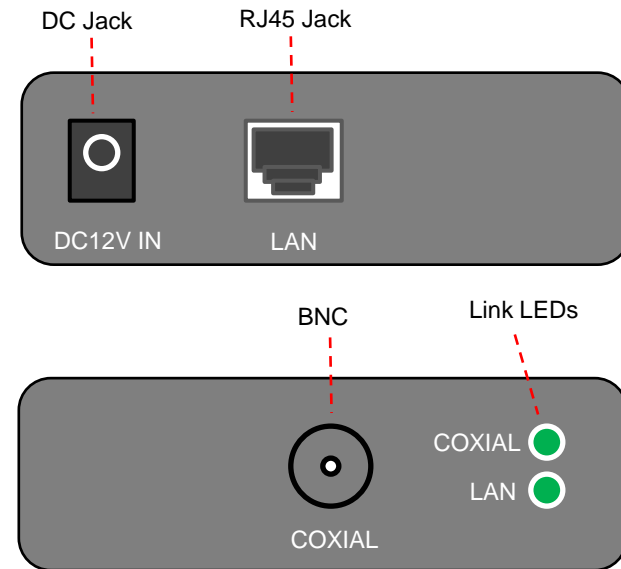

Highlights

- Enable long-distance transmission of Ethernet over coax cable
- True gigabit throughput up to 1.8Gb/s
- Up to 2000 meters of transmission distance
- Compatible with multi-drop cabling with CATV splitters
- Reuse otherwise unused in-house coax cabling to set up a wired home network for IPTV distribution and Internet access
- Retrofit an analog video camera system to an IP camera system over existing coax cabling
- Operation temperature range: -20~70°C
- Dimensions: 4.3" x 2.6" x 1.0"
- DC Input: 12VDC, 1.0A

Package Contents

- One DECA-1000 Gigabit Ethernet-over-Coax Transceiver Unit
- One AC-to-DC power adapter.
