## Experience the Digital Power of USB Phone 2 PC – Basic

Tired of lost or broken cassette tapes? Need more than a voice recorder or tape playback? Want to access information quickly and accurately, including electronic transfer through any platform? Throw away your cassette tapes and check out USB Phone 2 PC Basic.

YOUR KONEXX SOLUTION

The KONEXX USB Phone 2 PC – Basic is the ultimate low cost on demand recording solution. Record telephone conversations, meetings or dictation digitally to your PC or notebook. File the recordings for later retrieval and playback.
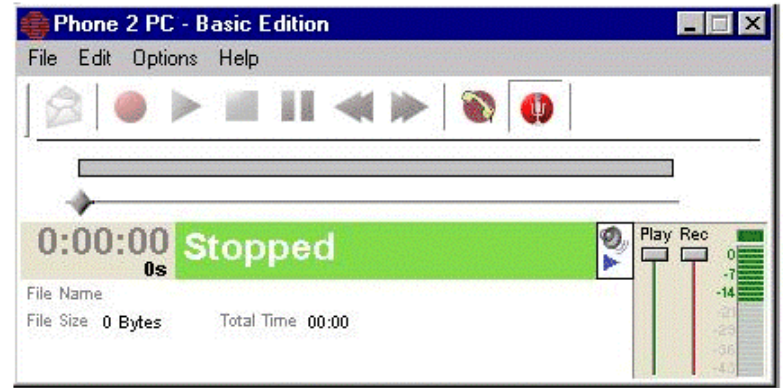

❑ Play back all of your important conversations. Easily access and replay important details that transpired.

❑ Eliminate the classic tape recorder and improve recording quality dramatically.

❑ Great organizational tool that saves your conversations in folders and directories on your PC just like your Word and Excel files.

❑ Share necessary information with your colleagues by emailing the conversations as an attachment.

❑ Replace note taking and memory for the complete recall of important conversations.

❑ No computer sound card needed. The USB Phone 2 PC interface is the sound card.

❑ Use the supplied external microphone for dictating or to record meetings.

❑ Compact size and lightweight interface with easy to use recording software.

Recording and saving your conversations is quick and easy with the Konexx USB Phone 2 PC – Basic.

Phone 2 PC Interface

Phone 2 PC – Basic Software

Features:

♦ USB Phone 2 PC hardware and software easily installs on an individual PC or notebook.

♦ Recorded files may be stored on the local hard drive or a network server.

♦ USB Phone 2 PC Interface connects your telephone with your computer enabling you to record telephone conversations as compressed wav files.

♦ Saved files can be e-mailed as attachments and archived for future reference.

♦ No external power source needed. USB Phone 2 PC gets its power from the USB port.

♦ Easily switch from recording phone conversation to recording from the supplied external microphone.

♦ Auto file naming feature allows you to save files with prefixes and/or date/time as the file name automatically.

♦ Includes an external microphone for easy dictation recording.

♦ Enables audio files to be played through the telephone set.

Specifications:

➢ Phone 2 PC software uses GSM 6.10 compression algorithms to keep file sizes manageable (1 hour of recording time = approx. 5.6 MB).

➢ Compatible with Microsoft Windows 98SE, Millennium, 2000 or XP Operating Systems (OS).

➢ Automatic Recording Level (ARL) ensures conversation is recorded clearly.

➢ Interface size: 3.0" (L) x 1.3" (W) x 1.0" (H).

➢ Weight: 1.5 ounces.

➢ Powered by computer's USB port.

Applications:

☞ Record and playback all of your important phone conversations or dictations.

☞ E-mail the recordings to associates (no time delay!).

☞ Dictate using the included external microphone.

☞ Record conversations or meetings for training purposes.

☞ Eliminate the hassle of sorting through and storing cassette tapes; record directly to your computer.

☞ Record important voice mails and archive them for future reference.

☞ Organize your recordings in folders and directories on your PC just like your Word or Excel files.
