Splash Screen Update

Updated January 14, 2021

Splash Screen Update

By default the ZVconnect Receiver unit will output a Ready or Splash Screen to the connected display whenever no Transmitter is actively sending video to the Receiver. This screen looks similar to the image below:

Note: This procedure requires an Android phone or tablet to perform.

This Splash Screen can be customized to any image desired by the user by following the procedure outlined below:

1. Create your desired custom background image. Image must be exactly 1920 x 1080 in size. (It is recommended that the corners be a light color such as white to not obscure ZVconnect Status information.)
2. Install the ZeeVee provided RemoteApp.apk application on an Android phone or tablet.
 - A. Connect USB cable from laptop to Android device.
 - B. From connected laptop you select the Android device in File Explorer
 - C. Go the Download folder in the Android device and you drag/copy in the RemoteApp.apk file **and** your custom background image.
 - D. Click on the RemoteApp.apk file to install on your Android device.

3. Run the RemoteApp application. Allow the application to access photos on your Android device. Allow the application to access the Android device location.
4. Wirelessly connect the Android device to the ZVconnect Receiver.

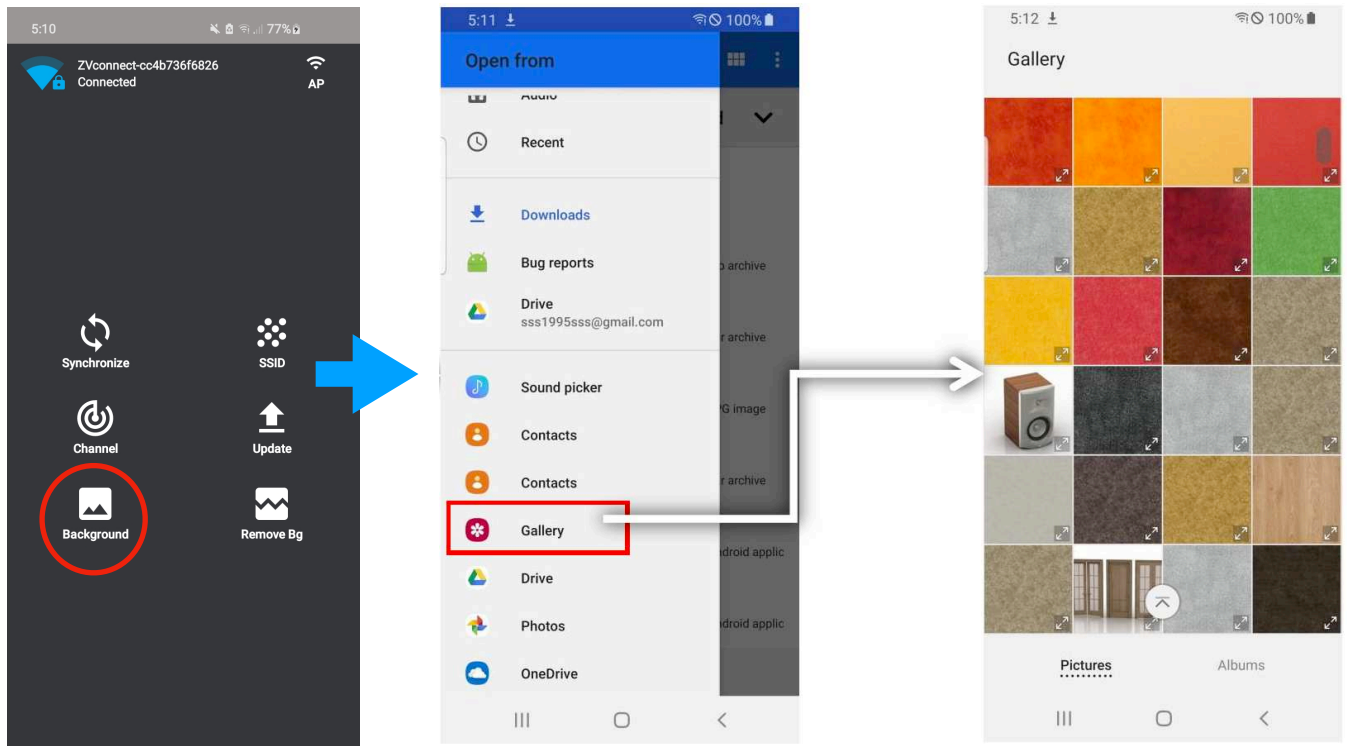

Click

Click

5. Click the Background button
6. Go to Gallery and choose your background image that was previously copied to the Android device. Background image will change in a few seconds. New background will remain unless changed again.

Important Note. To change background image again, First click “Remove Bg” and then the “Background” button.
